Discoveries revisited

In 2002, I published a 29 page article titled “A few new discoveries in physics” plus a single page review on this web site. I still think that the document is an important contribution to the world and that some of its quirks should be overlooked in order not to miss the opportunities. But this is “your beer”.

Contents of discoveries.zip

- discoveries.pdf – The main 29 page document, including also the May 2001 disclosure with proof of discovery in the appendix.
- discoveries-hires.pdf – The same document at higher resolution (2019).
- more/discoveries.txt – The plain text of discoveries.pdf.
- more/review.pdf – My single page review of 31 March 2002.
- more/fewmore.pdf – Timeline of when I wrote which parts of discoveries.pdf (plus an earlier philosophical text).
- more/wei-chi.pdf – A usenet post from 2004 (posted to alt.test).
- more/disclosures/ – Several earlier discovery disclosures from 1998 to 2001, plus a document that shows how I published (now cryptographically somewhat outdated) proofs of discovery at the time.
- more/odyssey.pdf – Short document with a quote from Usenet.
- more/pages – All pages of discoveries.pdf at their native resolution of 300 dpi (dvi-ps-pdf toolchain), plus review.pdf also rendered at 300 dpi.
- more/sources – Original LaTeX source of discoveries.pdf.
- more/sources-hires – LaTeX source of discoveries.pdf minimally adapted in 2019; renders to same line and page breaks, but on pixel level there are tiny differences, most notably space between main text and footnotes.
- more/fewmore-hires.pdf – Higher resolution and color chart (2019).
- more/source-fewmore-hires – Corresponding LaTeX source.
