## Mountain Astrologer Anzeigen

Zwischen 2009 und 2013 platzierte ich fünfundzwanzig leicht surreale Anzeigen in *The Mountain Astrologer*, einem prominenten US-amerikanischen Astrologiemagazin. Es waren drei leicht verschiedene Anzeigen.

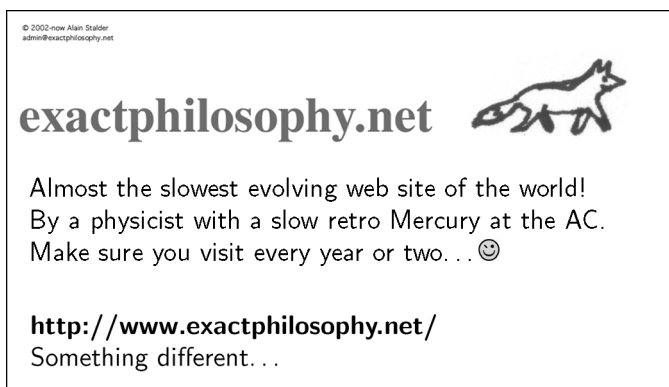

### Details

Alle Anzeigen hatten US Business Card Masse, 3.5" × 2" (89 mm × 51 mm). Hier sind übersetzter Text und Bild für die erste Anzeige, die erstmals in der Februar/März 2009 Ausgabe erschien, plus später noch fünf Mal zwischen Februar/März 2010 und Oktober/November 2010:

Schliesslich noch ein Scan einer Magazineiseite, mit fast der letzten Anzeige, unterhalb vom Artikel "Watching the Watchers: The Cryptic Charts of the NSA and Edward Snowden" ("Die Beobachter beobachten: Die kryptischen Horoskope der NSA und von Edward Snowden") in der Oktober/November 2013 Ausgabe von *The Mountain Astrologer*:

...in addition to other algorithms being used in at least 2010, and it is not yet clear whether the agency is looking to bring up to the reality of their data more responsibility again, to put it as diplomatically as possible.

There is the 3rd house in also associated with "total discipline and control" as well as "mathematical and scientific ability," according to astrologer Frances Suter and Linda Aker. "While it's questionable whether the NSA is fully meeting the law-abiding component of its North Node chart, there's no doubt it's building the mathematical and scientific components. The agency is, after all, known for the greatest concentration of computing power on the planet. Furthermore, the vast majority of its employees and contractors have backgrounds in advanced mathematics, computing, linguistics, or other scientific mental disciplines. The NSA's mathematical and scientific capabilities did become an important element that a team of NSA cryptanalysts took less than a month to crack three of the four coded messages on the CIA's famed 'Venona' intercepts. (See *Figure 2*, page 20.) By comparison, it took the CIA's own cryptanalysts eight years to perform the same feat."

Given the NSA's focus on its 3rd house, the sign of "the other" part of its North Node signature includes adding a third planet approach to communication. (I'll focus on people who speak other 3rd house languages. Today the agency is widely believed to possess computing hardware (Saturn) that not only detects keywords that focus but can actually discern the content and deeper meaning of other communications, regardless of the language in which they are spoken.

The NSA's focus on 3rd house is clearly evident. The planet of total control and discipline, Saturn, dominates and self-discipline. According to astrologer Frances Suter, Saturn-Pluto conjunctions are associated with "health issues and food poisoning." "The conjunction is in the 3rd house of communication and data sharing, so the 'health issues and food poisoning' indicated by the aspect would involve things like computer system viruses, hacking incidents, power line 'outages' and information leakage from 'Big Data' that are compromised in the food supplies from Big Ag.

**Strain in the 12th House: The Ghosts in the Machine**

The final component of the NSA's North Node signature is articulated by Aquarius's modern planetary ruler, Uranus, the planet of radical change and rapid progress, advanced technology, and experimental methodologies. Uranus from the stars you will not see deals with reality. Uranus the advancement and Transformation the source. The NSA's Uranus is placed in the 12th house of the unconscious and the super-conscious, hidden and mysterious, spirit and energies, all that is left out of the same time. Astrologer

through Uranus associates Uranus in the 12th with access to the "total's knowledge of universal wisdom ... experienced through previous generations," as well as interest in psychoanalysis and metaphysics, the mind-reading." The NSA may not be interested in actual psychoanalysis, but its capacity to store massive amounts of data does, in a manner of speaking, give it access to the collective experiences shared by several generations of hundreds of millions of our billions of people around the world. According to James Marshall, the agency has changed a great deal of the stored data into a computer system called "Quantum Advanced Database Research for Intelligence," an artificial intelligence program that has the ability to scan to find out what pages it deals about subject." "The system is to allow a mind-reading machine.

Astrologer Bill Thomas associates Uranus in the 12th house with "highly graphic images" created by technology, as well as "highly focused monitoring that identifies." "In the Uranus 12th house Saturn, there are even sources also being that the NSA's advanced super-computer networks have gathered new forms of artificial intelligence that can scan the data structure of NSA search systems like holographic grids." Such systems are, of course, incapable to confirm or deny, but rather access to highly intelligent opportunities in the sort of experience-based observations often among people with Uranus and not advancements in the 12th house (spiritual phenomena, great wisdom, & nothing else. The placement indicates that the agency likely has access to such insights for the general population would
