 Renaissance of the original idea. Moved the formal definition of emo/ero of 2018 to a later section (now in 'measurement'), as it seems not fundamental enough to reflect the immediate experience of being. December.
- 2020 Passing away of my dear parents Romeo+Suzy. January/February.
 Circumstantial evidence for how colors white-red-black relate to fire and moon, going back far into prehistory, and likely led to classical Greek elements.
 Possibly some steps closer to describing the star signs in terms of transformations between elements defined purely in terms of in/out and rest/move.
 Publication of the book *exactphilosophy.net 2020*. November.
 Idea that the psyche may operate almost exclusively along the circle of elements.
 Publication of the pocket book *Space, Time, Elements at exactphilosophy.net*. December.
 Realization that Apuleius' tasks of Psyche likely draw more on Plato's philosophy and later philosophical ideas than on mythology.
- 2021 Idea that outside ero is more inert and thus 'heavier'/denser than emo, and inside emi is more inert and thus 'heavier'/denser than eri; idea that in prehistory eri and emo would have been a single experience of life in the psyche, thus at first only three elements, colored white-red-black. January.
 Realization that findings thus far regarding the core idea of elements in terms of in/out, rest/move and their transformations, have now reached "critical mass"; their equivalence to ancient elements can now be shown practically without gaps. Maybe a conclusion, a natural end of my research has been reached. February.

 Lots of ruminations, still dreaming of **ELEMENTAL**, while another pocket book titled '**Space Time Elements**'/'**Raum Zeit Elemente**' might also emerge, or something else, just very unsure what if any might want to grow in the future. Some ruminations remained in articles *Future* and *Mysteries of life*.
- 2024 Publication of the book *exactphilosophy.net* (edition 2024). January.
 Learning can still happen even when not expected (any more), see the first post *The Limits of Control* in the noindex archive copy of my Usenet posts in the section  artemis, with my later comment there. Maybe I could also learn (or already did) what best to do or not do next, also regarding my discoveries and their promotion (or not), and my life, and life in general? February/March.
